

HOW TO CHANGE YOUR MT4 PASSWORD

1

To change your password login to your MetaTrader 4 platform and proceed to the menus which run across the top left of the platform.

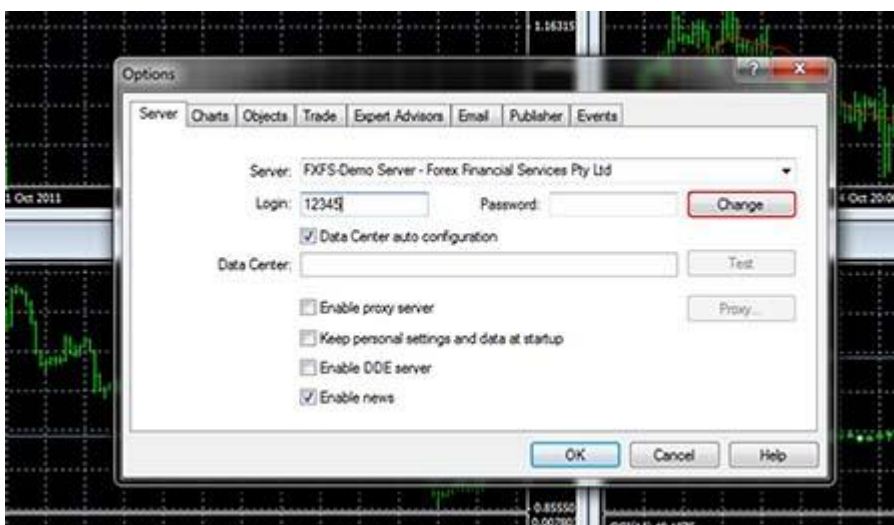

2

Click Tools then scroll down to the Options tab.

3

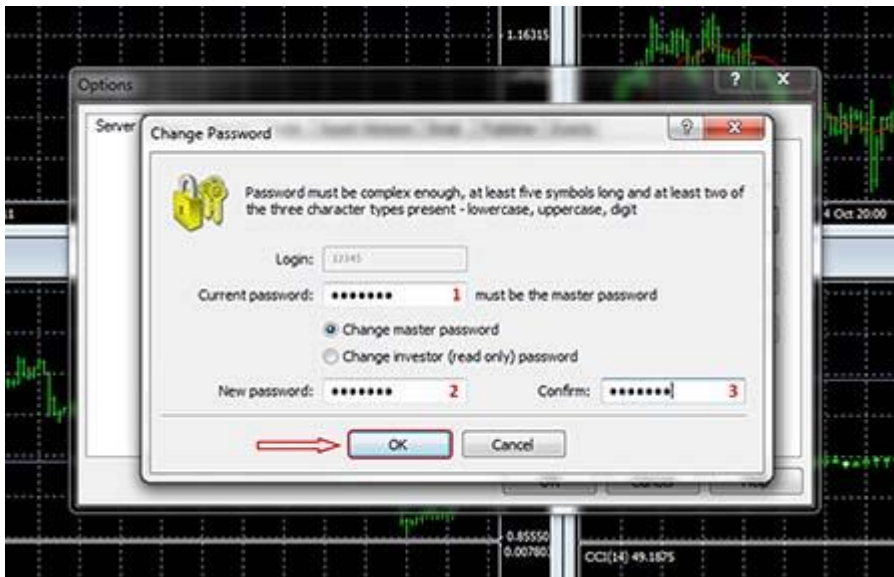

In the Options window, select the Server tab, enter your password if it's not already there, then click on the Change button.

4

The Change Password window will appear. Enter the current password in field marked 1, enter the new password in the field marked 2 then confirm your new password in the field marked 3. Click OK.

Please note that your password must be at least 5 symbols long and must consist of a mix of lower and uppercase letters as well as at least 1 digit.

5

Finish by clicking the OK button in the Options window
