Notes:

Tick values based on 1 standard lot

* Margin Level

Example Margin used on a position of 1 Standard lot (\$100,000) in USD/SEK when account is on 400:1 Leverage $400:1 = 0.25\%$ Margin rate \$100,000 @ $0.25\% = \$250$ as this instrument involves SEK there is a 2 times increase, which means the position Would utilize $2 * \$250 = \500 , which represents 200:1 leverage. In the event that the same client traded a one Standard lot (\$100,000) in USD/JPY, the margin used on this position would only be \$250. i.e. 400:1 Note: This 2-time increase applies to ALL Accounts, for the specific instrument, in our example USD/SEK.

* Based on 1 standard lot
